REAL CLASS: Microfiber Towel CANDIDATES FROM DB: ['Microfiber Towel', 'Shop Towel', 'Car Cleaning Cloth', 'Paper Towels', 'Terry Towel', 'Vacuum Edge Guard', 'Towel', 'Hand Wipes', 'Paint Surface Prep Wipes', 'Car Wash Sponge', 'Detailing Cleaner', 'Detail Cleaning Kit', 'Detailing Pad Washer']

**TRUE RESULT!!!** TITLE: TOWEL - CHEMICAL GUYS MIC\_801\_03 Monster Edgeless Microfiber Towel, White (16 in. x 16 in.) (Pack of 3) - The Edgeless No Bunch Microfiber Polishing Towels are completely edgeless and tag free. These towels are made of heavy weight microfiber that will never bunch up or scratch the surface of your vehicle. These towels are ideal for use on soft paints for wax and polish removal. The edgeless towels reduce the risk of friction which maximizes even finishes and reduces the risk of smudges and minor polishing scratches. These towels will never "bunch up" or "grab" paint which makes it perfect for delicate surfaces. These towels are also lint free making them perfect for glass cleaning. These towels are 100 percent machine washable. This towel is easy to wash using your favorite detergent. Toss it right into the washing machine for easy care. Just be sure to wash them separately from other laundry, to keep them lint free. As with all microfiber products, never expose them to fabric softener. Fabric softener will reduce their static properties and cause the microfiber to clean/spread less effectively. They can be line dried or machine dried on low setting, again, separately from other laundry. RES: Microfiber Towel

Diablo Gel Oxygen Infused Foam Wheel And Rim Cleaner, Concentrated (Safe on All Wheel & Rim Finishes), for Cars, Trucks, SUVs, Motorcycles, RVs & More 16 fl oz - Diablo Gel pH neutral wheel cleaner is safe enough to use on any and all OEM, after market wheels, painted and powder coated wheels, chrome, carbon fiber lips, decal wrapped wheels and lips and virtually all painted surfaces. Diablo Gel's suspension technology is oxygen rich infused. Concentrated suspension technology encapsulates dirt particles and rapidly lifts them away from the paint suspending them in a pH neutral slippery gelatin that easily rinses off wheels, leaving spot free results. The unique and unmatched gel consistency of Diablo enables it to stick to grime and brake dust filled wheels rapidly and efficiently loosening and lifting contaminants in suspension where they can be safely rinsed away from the surface, leaving wheels and tires spotless. Diablo Gel wheel and rim cleaner can be applied with a brush or sprayed on. Always dilute according to needs. For regular cleaning, dilute 1 part product to 6 parts water. For easy measurements in any bottle pour 1 inch Diablo and the rest of the bottle fill with water. For heavy duty cleaning Diablo can be left more concentrated 1:4 or 1:5. One 16 ounce bottle can make as many as 6 bottles of ready to use Diablo Gel. Safe for all wheels, non acid based, non caustic based, water based, extra slippery gel that safely cleans all wheels painted, clear coated, polished, chrome or anodized wheels. 100 percentage pH balanced and neutral so it's safe for delicate wheels. A single glance at Diablo wheel gel clearly shows how it holds the oxygen pockets inside of the products. Diablo wheel gel's unique extra slippery formulation lifts brake dust, dirt and contaminates away from any surface holding it in complete suspension so it can be safely rinsed off without staining any surface.
